

MEDICAL TOURISM IN INDIA

Exploring Healthcare Excellence & Global Opportunities

Presented by :- Rahul Swami

INTRODUCTION

WHAT IS MEDICAL TOURISM?

Travel to another country for medical treatment combined with tourism experiences.

GLOBAL TREND

Millions seek affordable, quality healthcare abroad annually — a rapidly growing industry.

INDIA'S POSITION

18.11 lakh foreign nationals visited India for medical tourism between 2023–2025, cementing India as a leading destination.

KEY APPEAL

Cost-effective treatments + world-class infrastructure + internationally trained doctors.

OVERVIEW OF MEDICAL TOURISM IN INDIA

AT A GLANCE

- **Geographic Reach:** South Asia, Africa, West Asia, Europe, and UK

KEY FEATURES OF INDIAN MEDICAL TOURISM

COST ADVANTAGE

60–80% cheaper than developed nations for identical procedures — without compromising quality.

ADVANCED TECHNOLOGY

Robotic surgeries, AI-driven diagnostics, and cutting-edge medical equipment at leading hospitals.

EXPERIENCED DOCTORS

Many specialists trained at international institutions, bringing global expertise to Indian patients.

MINIMAL WAITING TIMES

Quick appointments and fast-tracked procedures compared to months-long queues in developed countries.

HOLISTIC APPROACH

Modern medicine seamlessly combined with traditional AYUSH therapies for complete healing.

LEADING HOSPITALS

Apollo, Max Healthcare, Fortis, and Aster DM Healthcare — globally accredited institutions.

BENEFITS OF MEDICAL TOURISM IN INDIA

FOR PATIENTS

- ◆ Affordable, high-quality treatment Shorter

FOR ECONOMY

- ◆ Foreign exchange earnings Job
- ◆ creation across sectors
- ◆ Infrastructure development

FOR SOCIETY

- ◆ Knowledge and technology transfer Improved
- ◆ domestic healthcare standards International
- ◆ medical collaboration

❏ India offers cost-effective treatments with advanced medical capabilities — a unique competitive edge in the global healthcare market.

CHALLENGES & OBSTACLES

INFRASTRUC TURE GAPS

Inconsistent quality standards across tier-2 and tier-3 cities limits reach.

MARKET CONCENTRA TION

Over-reliance on Bangladesh as the primary source market creates vulnerability.

PATIENT EXPERIENCE

Challenges include discrimination, climate adjustment, and dietary preference gaps.

GLOBAL COMPETITIO N

Thailand, Singapore, and Mexico offer competitive, well-marketed alternatives.

AWARENESS GAP

Limited international marketing and weak global brand positioning hinder growth.

POST- TREATMENT SUPPORT

Follow-up care infrastructure in patients' home countries remains limited.

REAL-WORLD APPLICATIONS & PROCEDURES

CARDIAC SURGERY

Bypass, angioplasty, and heart transplants at world-class cardiac centres.

ORTHOPEDIC SURGERY

Joint replacement, spine surgery, and arthroscopy with rapid recovery protocols.

ONCOLOGY

Cancer treatment, chemotherapy, and advanced radiation therapy options.

DENTAL & FERTILITY

Implants, cosmetic dentistry, IVF, and reproductive medicine at affordable costs.

WELLNESS PROGRAMS

Ayurvedic treatments, yoga retreats, and detox programs blending ancient wisdom with modern care.

CASE STUDY: AHMEDABAD MEDICAL HUB

WHY AHMEDABAD?

- International patients drawn by quality care, cost-effectiveness, and experienced doctors
- English-speaking staff and fewer waiting periods enhance the patient experience
- Lower cost of living compared to metro cities — greater value for money
- Cultural familiarity and strong diaspora referral networks drive patient flow

IMPACT & OUTCOMES

HIGH SUCCESS RATES

Positive outcomes and repeat referrals from satisfied international patients.

ECONOMIC GROWTH

Job creation, infrastructure development, and local business expansion.

GLOBAL AFFILIATIONS

Hospital partnerships with foreign institutions boost credibility and referrals.
